

ORDER & EASE

DIANA BASTONE, Diana Bastone Designs

The Brief

Room to entertain, tons of storage and high functionality for everyday use were priorities. Items like small appliances needed to be neatly stashed away but also easily accessible. A clutter-free cooking area was a request, with plenty of closed storage for pots, pans and utensils – and two ovens for crowds.

Favourite Features

A built-in coffee maker satisfies the avid coffee drinker in the family; black finishes, a touchless faucet and a pot filler elevated and personalized the room's functionality and aesthetics. Materials like the solid surface counters and backsplash (which require no cleaning of grout) and leather stools ensure low maintenance.
